

Geo-Logic ASSOCIATES

Mr. Russell is a registered civil engineer in California, Colorado, Utah, Oregon, and Montana with 13 years of design and construction experience. He is responsible for the civil design and permitting of solid waste and mining projects throughout the United States and abroad. He also prepares design reports, waste characterization studies, SPCCPs, SWPPPs, permit documents, geotechnical investigations, seismic hazard studies, stability analyses, and surface hydrology studies. Mr. Russell has worked extensively on closure designs for landfills including the project manager for 3 closure designs at the Coffin Butte Landfill, a high rainfall site in Oregon. His experience on landfill closure projects includes hydraulic studies, final cover performance evaluation, final cover stability, and site seismic hazard analyses.
